Dear Sue

Hello, I hope you are doing good. Am also faring on well back here at Horizon, Kenya.

Back here in Kenya we are having heavy rains and a chilly climate every day.

Am preparing to join college in september I will be joining one of the Agricultural College in Kenya pursuing a course in Animal Production and Health Management. I still hope my dreams are still valid of becoming a veterinary doctor after my studies.

I still love playing volleyball during my leisure time, I also like reading newspapers and novels so as one day write my own books.

MELVIN
