

Dear Jason and Mikki

Hello hope you are well and doing fine. I thank God for allowing Me to write to you and you knowing how am fairing on. Am good also and of great health.

Despite the fact that the break out of corona has made learning institutions closed we are still learning and taking our studies seriously. This is enabled by our teachers through online classes where we are send assignments we do it and give back the feedback.

I enjoy playing soccer and volleyball during games time we also learn alot at home different chores such as cooking, swipping, cleaning the flower garden which make us to love our work. Its also my pleasure interacting with young kids which makes me love My career as a social worker.

At this time life has a great challenge because we are always indoors no more schooling no much interaction like we use to, we keep social distant, and also trust in God that ~~it~~ it would end for us to continue going to church and playing together.

From your daughter  
FAITH TENAI
