

BNc0036A.

Dear Thomas and Michelle.

Hi, I hope you are fine and doing well. here in Kenya am also doing well.

Right now am not at school because of the outbreak of Corona virus disease which has entirely affected the whole world.

We are doing online classes where by we are <sup>being send</sup> assignments by lecturers. which we do and send them back online by use of the Wi-fi network provided at home.

At free time I play football, ludo, volleyball and basket. which I enjoy doing.

This period of quarantine life is somehow challenging coz we cannot interact with our fellow colleagues at school. coz schools are closed and social distancing rule.
