

Dear: Ashtyn

Happy new year my sister? I am very glad for the letter, I am happy to get that you are doing good, I am also doing good and I thank God since I am on my final year in high school, It is my request that you put me in your prayers that God may grant me good results by the end of this year. I am happy to get that you love soccer as I do, that is my best sport and I do it at school, for me I love colour blue and purple, my best animal is Dog. Remember that you are always in my prayer that God may bless you.

I love you
