

BMC0041A.

Dear Anita,

Hello Anita? Hope you are doing fine. Here in Kenya I'm fine, and of good health. At Horizon the kids are going well, despite the breakdown of Corona virus.

Due to the extend breakup of Covid-19, all schools were closed and everyone is at home. Online learning has been the only option for all students, both in Universities and those in highschools; which are now provided here at Horizon and it is of great help

Everyone is now involved in Indoor games like Chess and Ludo which is pretty enjoyable. also playing Soccer, Volleyball, Basketball and athlete which keeps our body fit and everyone enjoys each bit of it

Life now is different in that everyone must put on a mask and also avoid gatherings like in churches which is bad, but we are coping up with it and hoping for the best

Good bye.
