

Jim Sponoo469

Hallehuya food company

Hello! I hope you are fine despite of the Challenges we are facing. I am farring on well here in Kenya.

We are currently at home, due to covid-19. We are safe because of the steps our parents have taken to prevent us from COVID-19. There is online reading which help us to ensure we focused in academic life.

At home (Baba nyumbani) we are enjoying life, because of the schedule that parent have made to favour everyone. We got time of reading working, resting, watching and playing. During games time I love playing volleyball.

During quarantine it is a bit tricky because to maintain government measure because we are use to one another. Above all we believe that God is going to see us through.

yours lovely daughter
