

Dear Jim,

Hello, how are you? hope you are fine. I am also doing well here in Kenya. We all give our God glory for keeping us safe. It is because of him that we can walk and talk or even sing to him. The schools are now closed due to corona but we all believe that with God, everything is possible. It is our prayer that this corona ends for us to go back to school, and make sure our dreams come true.

We are learning how to prepare farms ready for planting. We have planted different vegetables on our farms. We have decorated our farms also. I enjoy playing volleyball during games time. Chess and badminton have been introduced. They are enjoyable.

Our Sunday Services are being done in family level. The level of cleanliness has gone high. Thankyou for putting smiles on our faces. May God bless the work of your hands.
