

Dear Steve and colleen  
Hello! hope you are doing well despite the challenge of Covid-19 that has affected the whole world. Here in Kenya I am also doing well and I am following instructions by keeping distance, washing my hands everytime to avoid this disease.

We are at home now and helping our parent watering the tree and weeding it. We <sup>are</sup> also studying at home school work and asking assistant to our big sisters and our brothers.

At our free time I like playing basket ball and teaching my sisters how to dance to perfect our talent.

We are enjoying ourselves at our leisure time in participating in many activities such as talent show and I participated in dancing and I was position two. Please Dad and Mum keep distance wash your hands everytime and be safe.

I love you all.

From your daughter,  
Valentine Chepkoech
