

Dear, Travis
Hello! Hope you are doing well despite the challenge of Covid-19 that is affecting the whole world. In Kenya I am also doing well and I am following instructions by keeping distance washing my hand ~~everytime~~ to avoid pandemic.

Now we are at home our big sisters and brothers are helping us with school work because of Covid-19

At free time we enjoy ourselves in participating in many activities during talent show. During this quarantine period, I managed to be number two in group dance and number two also in taarab song

During free time I like playing basket ball, teaching my sisters how to dance to perfect our talent.

I pray to God to be with you. Please keep distance washing ~~my~~ ^{your} hands and be safe
